## PROFILE INFO

Experienced Document Management Expert specialized in Buildings, Infrastructure, and Sewage Treatment Projects, with a proven track record in ensuring streamlined documentation processes, from creation to retrieval. Proficient in organizing, categorizing, and maintaining project records for smooth collaboration, including expertise in managing comprehensive closeout documentation and handover deliverables. Committed to enhancing efficiency and accuracy within the industry through precise Document Control.

## Work Experience

### EGIS QBC JV, Doha, Qatar

#### Senior Document Controller

December 2025 - Present

- Manage and control all project documentation for the Roads Maintenance Project, ensuring compliance with Ashghal requirements and project document control procedures.
- Prepare, maintain, and update logs and registers for all deliverables, technical submissions, correspondences, and records throughout the project lifecycle.
- Handle submission, tracking, and follow-up of documents through Ashghal CTS, APMS, and PDLM platforms, ensuring timely reviews and approvals.
- Coordinate with project teams, engineers, and stakeholders to ensure accurate document flow, version control, and proper referencing of submissions.
- Monitor document status, responses, and deadlines, and provide regular reports to the project management team to support effective decision-making.

### Va Tech Wabag Ltd. Doha, Qatar

#### Senior Document Controller (Handover)

July 2023 - December 2025

- Prepare and submit handover deliverables for PCC, FCC, and DC Clearance.
- Manage the timely submission of deliverables and DC Clearance through Ashghal's PDLM (Project Document Lifecycle Management).
- Developed comprehensive Operation & Maintenance Manuals detailing equipment procedures, maintenance schedules, and safety protocols, ensuring compliance with Ashghal's standards and guidelines.
- Provide support and guidance to team members on dossier preparation and submission procedures.
- Attend weekly handover meetings with clients and supervision consultants to discuss the status of close-out documentation.
- Prepare and present PowerPoint presentations during meetings, explaining key details as needed.
- Update Snag Lists for various disciplines and prepare weekly reports and overall snag summaries.

## **KEO International Consultants, Doha, Qatar**

### **Document Controller**

June 2023 - July 2023

- Efficiently managed, organized, and maintained all project-related documents. This involved receiving, logging, and accurately filing both hard copy and electronic formats, ensuring they were easily retrievable.
- Operated and maintained the project's document control system, ensuring proper indexing, version control, and distribution of all incoming and outgoing documents in accordance with project procedures and KEO's standards.
- Actively received and logged all incoming documents from the Contractor and other external parties. Coordinated directly with the Contractor regarding document submissions, transmittals, and any discrepancies.
- Performed quality checks on all documents to ensure accuracy, completeness, and adherence to project and company documentation standards, including proper numbering, titling, and revision control before circulation or archiving. This included verifying transmittals from the Contractor against received documents.
- Maintained comprehensive logs and registers for various document types (e.g., submittal log, RFI log, drawing register), meticulously tracking the status of Contractor submissions, review cycles, and approvals.

## **China Railway Construction Corporation Ltd., Doha, Qatar**

### **Document Controller**

February 2023 - June 2023

- Managed project documentation efficiently through the Aconex platform.
- Maintained a comprehensive Master Filing System for secure storage of technical documents.
- Ensured precise document structure and accurate data, facilitating clear communication with clients.
- Proficiently uploaded and organized data on the Client's APMS; implemented seamless internal workflows via Aconex.
- Generated and submitted weekly reports on incoming and outgoing documents to relevant departments, optimizing document flow and project coordination.

## **Continental Mercantile Corporation HR Consultants and Global Recruiters, Cochin, Kerala**

### **Document Controller**

August 2021 - November 2022

- Oversaw the recording, verification, and monitoring of both incoming and outgoing documents, ensuring accuracy and compliance.
- Facilitated efficient dissemination of documents across departments and branches to foster collaboration.
- Managed comprehensive document logs, encompassing correspondence and resumes, ensuring organized record-keeping.
- Maintained thorough records of interviews and new hires, contributing to effective HR processes.

## **QBS International WLL, Doha, Qatar**

### **Lead Document Controller**

July 2012 - January 2020

- Led the successful introduction and implementation of a robust and highly efficient document control system across various large-scale Expressway and Local Roads & Drainage Projects (LRDP). This initiative significantly enhanced organizational efficiency and compliance with project requirements.
- Designed and developed comprehensive document distribution matrices, optimizing the flow of information to ensure that all project stakeholders received the correct and latest versions of documents in a timely manner, thereby minimizing errors and improving collaboration.
- Operated and managed document control functions across multiple diverse platforms, including Enterprise Document Management Systems (EDMS) and SharePoint, ensuring smooth integration and consistency in documentation practices across different projects.
- Developed and delivered training programs for new document control staff, ensuring their rapid integration into project workflows and adherence to established document control procedures and best practices.
- Actively participated in both internal and external quality audits, contributing to the continuous improvement of document control processes and ensuring compliance with industry standards and project-specific quality management systems.
- Systematically analyzed existing document control workflows and identified areas for improvement, leading to the implementation of solutions that significantly reduced processing times and enhanced the overall efficiency of document management operations.
- Responsible for the effective and efficient document control of all documents, in accordance with the established company procedures.
- Uploading Technical Documents and Correspondences to EDMS.
- Distribute documents, maintain electronic folders and directories, and tracked and retrieved documents and drawings.
- Prepared Document Filing Structure and forms for new Projects.

## **Baytur Insaat Taahhut, Doha QATAR**

### **Document Controller**
